EXAMINER'S COMMENT/REASONS FOR ALLOWANCE

1. All previous rejections have been overcome by the amendment filed on November 22, 2006 and the rejections are withdrawn. *Claims 1-4* are now pending in the application.
2. The Drawing filed on March 22, 2004 is accepted by the examiner.

Reasons For Allowance

3. *Claims 1-4* are allowed.

4. The following is an Examiner's Statement of Reasons for Allowance:

The instant claims are allowable over prior art Reynolds et al. (US 6,337,362).

The present claims are directed to a resin composition comprising 0.0005 to 0.05 parts by wt. of 2-(1-arylalkylidene) acetic ester per 100 parts by wt. of at least one resin selected from methyl methacrylate resin, styrene resin and methyl methacrylate-styrene copolymer resin.

Prior art to Reynolds et al. discloses ultraviolet resistant premix compositions and articles using such compositions. The compositions include micronized zinc oxide UV blocking agent with at least one organic UV protective compound. UV protective compound may be one of benzotriazole compounds, oxoanilide compounds, benzophenone compounds, triazine compounds or cyanoacrylate compounds. As to the amount of the organic UV protective compounds, the prior art discloses a range of about 3 to about 30% by weight of the premixed composition and a range of about 0.1 to about 1.0% by weight of the composition.

Art Unit: 1713

The prior art of record does not teach or suggest the limitation of 0.0005 to 0.05 part by wt. of UV protective compound per 100 parts by wt. of by weight. Additionally, the prior art also discloses a variety of UV protective compounds where as the instant invention demonstrates in the working examples and comparative examples, the superior performance expressed in terms of color associated with the transmitted light when 2-(1-arylalkylidene) acetic ester is used in the compositions. Therefore, the instantly claimed invention is deemed allowable over closest prior art of record as per said art neither anticipating nor rendering obvious, alone or in combination, the instantly claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance.
